

Each year, Stocklake Park school receives Year 7 Catch Up premium funding (Literacy & Numeracy) for year 7's. This is a government initiative that provides additional funding to all state-funded schools with a year 7 cohort, including special schools. £500 per pupil is the current funding per year. Each school in receipt of this funding is required to publish certain information on the school's website and must include the following information:

- Plans to spend the current academic year's allocation (by October half term)
- Monies spent the previous academic year (by October half term)
- What effect the premium had on pupils' educational performance (impact)
- How the school assessed the effect on progress (by Autumn Data report to governors)

OFSTED inspectors will consider how schools are using the premium and the impact of this within their inspection visits to the school.

Aims:

- To ensure personalised learning is at the heart of our provision, delivered through a differentiated approach within teaching and learning
- To provide a means to further pupil engagement in learning
- To provide additional support/resources
- To ensure all pupils are prepared well for learning
- To provide opportunities for transition from primary setting
- To provide extra-curricular activities

The school will consider the objectives/outcomes from the pupils' EHC plan in addition to prior knowledge from primary school to determine how this additional funding is used. All expenditure will be planned by the October half term.
